

Baranova Nataly

React Developer

I'm a result oriented energetic front-end developer with experience in building web interfaces using React/Redux/TypeScript. Every day I work on my skills in this direction and expanding them with new knowledge. And I solve katas on codewars.com and freecodecamp.com in my free time:).

Work Experience

I began my coding life from studying PHP and Yii-2 on my own. I'm self-educated PHP-developer, I have little commercial experience on Yii-2, Symfony 5 and Laravel 8. Then I changed everything, tried React JS and I enjoyed it so much, that went to IT-INCUBATOR, the best it-school in Russian speaking segment. I became a front-end developer and I know, how things are made on a PHP backend.
