

Baranova Natalia

Frontend Developer

I'm a result oriented energetic front-end developer with experience in building web interfaces. Every day I work on my skills in this direction and expanding them with new knowledge. Currently I'm learning React Native. My plans is to learn ExpressJS. I solve katas on codewars.com. I value my own time very high, that's why it's better for me to have a remote work. But I can consider an office job too, depends on opportunities that it could provide me with.

Skills

- **Languages:** JavaScript, TypeScript
- **JS libraries and frameworks:** ReactJS, React Native, NextJS
- **State management libraries:** Redux(toolkit), Thunk, RTK-query
- **Routing:** React-router-DOM, React Navigation
- **Forms:** React-formik, React-form, React-hook-form
- **Testing:** Unit, Jest, Snapshot image test, Postman
- **Patterns:** TDD, Singleton, Observer, PubSub
- **API:** Axios, Rest, Swagger
- **Storybook**
- **Version control:** GitHub, GitLab
- **Styles:** CSS, Sass, Scss, styled components
- **Design libraries:** Material UI, Tailwind CSS, Bootstrap

Work Experience

My projects as a frontend developer:

- [Smart Learning Cards](#) ↗
- [Social Network](#) ↗
- [Task Manager](#) ↗
- [Time Tracker](#) ↗
- [Instagram Clone](#) ↗
- [Start-up project Free Math Trainer](#) ↗ since 2023

Technology stack on my projects:

ReactJS, NextJS, Redux, Redux Toolkit, React-router-DOM, Hooks, class components, React-formik, React-form, React-hook-form, Axios, RestAPI, MaterialUI, styled components, Storybook, Unit tests

My responsibilities:

work in a command, meet ups
developing user interface,
implementing pagination, search and sort of data,
working with Swagger docs,
RESTful (Registration/loginization/pagination etc.),
testing UI and functionality of components,
performance optimization,
project architectural solutions (UI, BLL, DAL, server),
bug fixing and code maintenance.

My previous work as a developer:

- **Lemma-auto** - fullstack developer 2021-2022
It's a shop of autoparts. I've made it on Laravel 8, php, MySQL from scratch. For UI I've used native tools: html, sass, JavaScript and frameworks: bootstrap on a site, tailwind on a dashboard.
- **Mos.ru** - backend developer 2020-2021
The main portal of the city of Moscow. I worked as a backend developer (Symfony5)
- **Labirint.ru** - fullstack developer 2020-2020
This is a bookstore. I worked as a full-stack developer (Yii2, native JS, html, css)
- **Ministry of Economic Development** - database developer MS Access 2006-2020
Development of an internal database for regulatory documents in MS Access.

Education

- **IT-INCUBATOR** 2022-2023
Frontend Developer
Learning and working with React, Redux, TypeScript, Promises, REST API, Git, CSS/SASS, Material UI, TDD, Storybook and other modern frontend technologies
- **Moscow State University of tourism and service** 2006-2011
computer analyst
Learning databases, SQL, Objective Pascal, Delphi, HTML, Math, other fundamental theoretical subjects and other old stuff

Languages

Russian - native
English - C1 (in progress)
