

## Baranova Natalya

### Frontend Developer

I'm a result oriented energetic front-end developer with experience in building web interfaces using React/Redux/TypeScript. Every day I work on my skills in this direction and expanding them with new knowledge. Currently I'm learning React Native. I solve katas on codewars.com and learn English in my free time on my own. I value my own time very high, that's why it's better for me to have a remote work. But I can consider an office job too, depends on opportunities that it could provide me with.

### Skills

- **Languages:** JavaScript, TypeScript
- **JS libraries and frameworks:** React, React Native
- **State management libraries:** Redux(toolkit), Thunk, RTK-query
- **Routing:** React-router-DOM
- **Forms:** React-formik, React-form, React-hook-form
- **Testing:** Unit, Jest, Snapshot image test, Postman
- **Patterns:** TDD
- **API:** Axios, Rest, Swagger
- **Storybook**
- **Version control:** GitHub, GitLab
- **Styles:** CSS, Sass, Scss, styled components
- **Design libraries:** Material UI, Tailwind CSS, Bootstrap, Bootstrap

## Work Experience

My projects as a frontend developer:

- [Smart Learning Cards](#) ↗
- [Social Network](#) ↗
- [Task Manager](#) ↗
- [Time Tracker](#) ↗

### Technology stack on my projects:

React JS, Redux, Redux Toolkit, React-router-DOM, Hooks, class components, React-formik, React-form, React-hook-form, Axios, Rest API, Material UI, styled components, Storybook, Unit tests

### My responsibilities:

work in a command, meet ups  
developing user interface,  
implementing pagination, search and sort of data,  
working with Swagger docs,  
RESTful (Registration/loginization/pagination etc.),  
testing UI and functionality of components,  
performance optimization,  
project architectural solutions (UI, BLL, DAL, server),  
bug fixing and code maintenance.

- [Lemma-auto.ru](#)

It's a shop of autoparts. I've made it on Laravel 8, php, MySQL from scratch. For UI I've used native tools: html, sass, JavaScript and frameworks: bootstrap on a site, tailwind on a dashboard.

- [Ministry of Economic Development](#)

Development of an internal database for regulatory documents in MS Access.

## Education

- **IT-INCUBATOR** 2021-2022  
**Frontend Developer**  
Learning and working with React, Redux, TypeScript, Promises, REST API, Git, CSS/SASS, Material UI, TDD, Storybook and other modern frontend technologies
- **Moscow State University of tourism and service** 2006-2011  
**computer analyst**  
Learning databases, SQL, Objective Pascal, Delphi, HTML, Math, other fundamental theoretical subjects and other old stuff

## Personal Achievements

The fifth place at the Russian National Championship of snowboard 2008, a member of the Russian national snowboard team 2008-2009. I graduated the university with the diploma of honour.

## Languages

Russian - native

English - B2 (in progress)
